Category	Module	Notes (For more details see Version 16.0 KY Preview)
Standards Mapping	Classrooms	▪ Standards mapping feature has been removed until it can be updated for use with current browser version
Scoring	Assessment Admin	▪ Unsaved Data warning, asking for confirmation, on scoring page, if you try to navigate away without saving your scored items
Password/Passcodes	Assessment Admin	▪ The password and passcode generator will no longer include the letters "l", "I" and "O" nor the numbers "1" and "0"
Cancel Copy	Assessment Admin	▪ "Cancel" button was added to the "Create Manual Test" page when a test is copied
Score Page	Assessment Admin	▪ Answers for matching items can now be selected by clicking a button (like with multiple choice) rather than selecting an answer choice from a drop-down list
Add Passages	Assessment Admin	▪ The placement of the button to add passages to a test items has been moved to match its location on Create/Edit Open Response item page
Co-Author	Assessment Admin	▪ Teachers without additional Assessment Admin rights can choose to co-author a created item upon save
Benchmark Tests Restriction	Assessment Admin	▪ State, District and Region Benchmark Tests can now be marked "Restrict Teacher Access" by assessment administrators, preventing teachers/students from doing any of the following prior to the test start date: ▪ Viewing the test item content and associated resources ▪ Print test booklets and answer sheets (the section information and teacher name does not print on generated answer sheets or answer sheet cover pages) ▪ Students cannot access a restricted test online (regardless of test's online test student access settings)
Export Assessments	Assessment Admin	▪ A user with the appropriate permission ("Export an item or test from Schoolnet") can export Schoolnet authored assessments using QTI 2.1
American Sign Language	Assessment Admin	▪ American Sign Language can now be set for the assessment item question and response ▪ Users can search for and create assessment items for American Sign Language ▪ Schoolnet's QTI Import and Export has been enhanced to support American Sign Language

Passage Lexile	Assessment Admin	▪ Users have the ability to set the Lexile Type for a passage
		▪ Schoolnet's QTI Import and Export has been enhanced to support the Lexile Type and the Lexile Code
		▪ Users can search for and create passage Lexile values
		  ▪ Valid Lexile Codes are between 0 and 1900
		  ▪ Valid Lexile Types include:
		  o AD: Adult Directed
		  o NC: Non-Conforming
		  o HL: High-Low
		  o IG: Illustrated Guide
		  o GN: Graphic Novel
		  o BR: Beginning Reading
		  o NP: Non-Prose

Item Bulk Share	Assessment Admin	▪ District users can now search for items, they have permission to edit, and share approved items, with other Schoolnet user types in bulk, as a single operation ▪ Both items that have been previously shared as well as items that have never been shared can be selected and updated using the new bulk share operation.

System Performance	Assessment Admin	▪ Students Submitting tests via online test tunnel
		  ▪ Saving and submitting process enhanced to accommodate larger number of students submitting data
		  ▪ Results might not appear instantly (may take a few seconds)
		  ▪ Now being saved and processed on first come first serve basis
		▪ Searching for Materials, Items and Passages performance enhanced to reduce display time

Answer Sheet Generator	Assessment Admin	▪ Ability to generate answer sheets and group by either alphabetical order or by section
		  ▪ On the School/Grade tab, defaults to group by alphabetical order
		  ▪ Works the same way for the school/grade view and the school view by student
		  ▪ Messaging improved
		  o Generate Blank Answer Sheet link turned into button

Copy a Rubric	Assessment Admin	▪ Clicking on "Copy" in a rubric will take the user to the "edit" page of the copied rubric ▪ "(Copy)" will be added to the end of the name, and the user will be able to edit the rubric, or save it as is ▪ If the user wants to make another copy of the original rubric, (Copy 2) will display, etc. ▪ Success messaging added to indicate that the rubric was copied successfully

Assessment Score	Assessment Admin	▪ New configuration option to show student score upon test submission ▪ Some clients don't want the results appearing for students immediately when they submit a test online because if there are open response questions, the score is not accurate ▪ They have to remember to uncheck the "show student scores upon test submission" option each time they schedule a test to disable it ▪ New top level admin configuration added to allow easy one time setting (enabled by default) ▪ Unchecking the checkbox on the System – Online Testing page will uncheck the checkbox by default on the schedule page
Updated ScanIt	Assessment Admin	▪ Updated ScanIt user interface as well as the answer sheet and image recognition logic ▪ Interface has been simplified to improve usability (Version 7.0.2) ▪ Compatible with answer sheets created in Schoolnet 15.4 ▪ Student ID and Barcode reading logic has been improved to reduce errors ▪ Student ID bubbles are now printed with black bubbles (rather than the lighter bubbles that mimic pencil parks)
Download Assessments Results	Assessment Admin	▪ Hosting can enable / disable the feature ▪ Set System → General Settings → Config → Schoolnet.Applications.Assess → DownloadResultsAndUploadStatsEnabled to TRUE ▪ Setting is FALSE by default ▪ Download Results link is available on the Test Details Page ▪ Link will only appear if all the following criteria are true: o The user is a State or District System Operator o More than 30 students have taken the test across the system o There is at least one result available to download ▪ Results downloaded are specific to user context ▪ A State user can download all results in the State ▪ A District user can only download the results for his/her District ▪ Downloaded file is UTF-8 CSV file and supports special characters ▪ A known bug in Excel prevents special characters from being displayed if file is opened in Excel. To display special characters, file must be imported to Excel.

Upload Summary Statistics	Assessment Admin	▪ Upload summary statistics (Scale Score & Equivalent)
		▪ Hosting can enable / disable the feature
		  ▪ Set System → General Settings → Config → Schoolnet.Applications.Assess → DownloadResultsAndUploadStatsEnabled to TRUE
		  ▪ Setting is FALSE by default
		▪ Upload Statistics link is available on the Test Details page if the following criteria are all true:
		  ▪ The user is a State or District System Operator
		  ▪ More than 30 students have taken the test across the system
		  ▪ There is at least one result available in this user's context
		▪ Sample file can be downloaded and used as a template, and contains:
		  ▪ Student ID
		  ▪ Test ID
		  ▪ Scale Score
		  o Transformation of raw scores
		  o Provides means to directly compare groups of examinees:
		  ▪ Who took the same assessment but on different dates
		  ▪ Who took totally different assessments
		▪ Grade Equivalent
		  ▪ A number (expressed in grade "dot" months) describing a student's location on an achievement continuum
		  o If a student gets a score of 4.2 on a Reading Test, it implies that the student reads at a level of a student entering into their 2nd month of 4th grade.
		▪ A message appears if the upload was completely unsuccessful or completely successful
		▪ An error file can be downloaded if the upload was PARTIALLY successful
		  ▪ Contains a copy of the data that was not successfully uploaded
		  ▪ Contains specific error message(s) and error location(s)
		  ▪ Can be edited and then re-uploaded
		  o Only the problems can be corrected instead of re-uploading the entire (and much larger) original file
		▪ Blanks are acceptable and mean "delete this value"
		▪ Uploaded Summary Statistics can be viewed:
		▪ Classrooms → Student Performance → Summary Statistics → Student Profile → Benchmark Tests
